Welcome!

The ETCF Scholarship Handbook provides valuable scholarship information to students pursuing an education beyond high school. Most of the scholarships listed in this guide are for high school seniors, however, there are also several opportunities for students already enrolled in college and/or non-traditional students.

There are literally thousands of national and local scholarships available to students. This directory features scholarships available specifically to students in East Texas. Students are encouraged to apply for as many scholarships as they qualify for. Multiple scholarships can be awarded to a single student resulting in a substantial cumulative amount. All scholarship dollars that are awarded aid in off-setting tuition expenses and fees.

Our scholarships are broken down by county, so this directory allows you to see a snapshot of what is available to you based on the county your high school is located in. Then we offer a more in-depth description of the opportunities so you can determine if you meet the eligibility requirements. Most of our opportunities are part of the universal application so you only have to answer the questions one time and it will populate to all the opportunities you are eligible for. You will have to hit [SUBMIT] on each individual application and answer any supplemental questions that might be specific to one opportunity.

We hope this directory is a helpful resource as you consider the numerous scholarship opportunities available to you. Please feel free to reach out to our ETCF Program Officers if you have any questions regarding the online application process or eligibility requirements. Our staff can also assist you with general scholarship questions and help you navigate the financial aid process.

UNIVERSAL APPLICATION OPPORTUNITIES BY COUNTY

The East Texas Communities Foundation utilizes a universal application to make the application process as easy as possible for students. Students will have the opportunity to complete a series of eligibility questions, determine what scholarship opportunities they are eligible for, provide the required information and submit multiple applications from the online portal. The Universal Application will pre-populate all the "universal" information to all applications so they are only having to enter the information once. They will then need to submit each individual opportunity.

This list breaks down the different scholarship opportunities based on the county the applicant's high school is located in within the 32 counties ETCF serves. Eligibility is based on specific criteria determined by the donor.
